PUBLICATION NO.63/1963

PRODUCTION STATISTICS - JULY, 1963 : BULLETIN NO.152

This publication contains factory production statistics for July, 1963. These refer to certain commodities produced in Victoria. Details of Australian production of these items are published in similar form in the Monthly Bulletin of Production Statistics issued by the Head Office of the Bureau in Canberra. Many of these items are shown in greater detail in other publications of the Bureau.

Annual totals for the last three financial years are shown in conjunction with :-

- (a) Totals for the most recent six-monthly and three-monthly periods together with comparative figures for the same periods twelve months earlier; and
- (b) Monthly totals for each of the latest fifteen months.

Figures up to 1961-62, represent totals derived where possible from annual factory returns. It should be noted that for some factories, annual returns are accepted for a period other than the normal financial year ended June 30th.

From July, 1962, onwards, figures are preliminary and subject to revision.

The scope of the Bulletin will be widened from time to time to include new information as it becomes available for publication.

DEFINITION

For the purpose of the accompanying statistics, a "factory" is defined as "an establishment in which four or more persons are employed or where power (other than manual) is used in any manufacturing process".

SYMBOLS

The following symbols are used in the Bulletin :-
